

New TYE Options in Workforce Hub:

To view/update these options, you will need to log into the Workforce Hub: www.bnsf.com/wfhub

Select the "Assignment" drop down menu then "TYE Options".

From there you will see the following view with three new TYE Options available (underlined in red):

On/Yes = selector to the right/black

Off/No = selector to the left/white

Below is a description of what each one does and what it will say when the information icon is selected -

7 Perm Bid: Drop to the foot on FRA rest (BLET): “If you get a new assignment while you are observing your FRA rest, and this option is set to ‘Yes/On’ – you can go to the foot of the board within 1 hour after your FRA rest has been completed. If this option is set to ‘No/Off’ - you will not have the option to foot of board once your FRA rest has been completed. This option will be auto set to No/Off.”

8 Perm Bid: Apply FRA rest instead of Agreement rest: “If this option is set to ‘Yes/On’, then FRA rest will be applied. If this option is set to ‘No/Off’, then agreement rest will be applied. This option will be auto set to No/Off .”

9 Perm Bid: Return to my previous assignment when my vacation is over: “This option protects shadow turns. If this option is set to ‘Yes/On’, the system will try to put you back to your previous assignment when your vacation is over. If this option is set to ‘No/Off’, you will not have a guarantee to return to your previous assignment when your vacation is over. This option only applies when taking a full week of vacation and will be auto set to Yes/On.”

How to know if your selection is On or Off:

If the selection is set to the right and showing in black in it is ‘On’

Permanent Selection

If the selection is set to the left and showing in white it is ‘Off’

One Time

Permanent Selection

Please Note:

SMART TD Bids will only be run 1x a day. Below is the time that this will be done for each time zone:

SMART TD Central: 1100 CT

SMART TD Mountain: 1000 MT

SMART TD Pacific: 0900 PT
